DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. **Claims 1-112,115-179,182,183** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claim 1, it is unclear whether claim 1 is a method of an apparatus claim. Similar problem in claims 2,41,101,108.

With regard to claim 1, line 22, "prefer" renders claim 1 vague because it is unclear whether "meeting the following criteria ..." is required or not. Similar problem in claims 2,41,101,108.

With regard to claim 1, the exact meaning of lines 28-30 is unascertainable. Applicant is requested to further clarify how to count "diversity capability means" versus subsets so that the comparison can be made: "each node in said set of nodes belonging to no more transmitting uplink or receiving uplink subsets than it has diversity capability means". Similar problem in claims 2,41,108.

Allowable Subject Matter

3. **Claims 113 and 114** are allowed.
4. The following is an examiner's statement of reasons for allowance:

With regard to claim 113, the prior art of record fails to anticipated or make obvious a wireless electromagnetic communications network with the combination of

limitations, such network comprising "a set of nodes [with limitations as recited in claim 113] ... a LEGO adaptation element and algorithm; a network controller element and algorithm; whereby each node ... each receiving node ... each node ... [each with limitations as recited in claim 113] ... the network is designed such that substantially reciprocal symmetry exists for the uplink and downlink channels by ... [the equations provided]"

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
